

## DM-FEP THIN WALL TUBING

FEP heat shrink tubing

### Applications

Suitable for high end, critical applications, typically: military, aerospace, medical and optical sectors.

### Features:

High performance, highly flame retardant, modified fluorinated ethylene propylene (FEP) heat shrink tubing. Excellent resistance to chemicals and a low friction coefficient.

### Various

Standard color: Natural. Other colors available on request.

Shrink Ratio: 1.3:1 1.6:1

### Technical Data

| Property          |                       | Test Method | Typical Data      |
|-------------------|-----------------------|-------------|-------------------|
| Physical Chemical | Operating temperature | UL 224      | -200°C to + 205°C |
|                   | Longitudinal change   | ASTM D2671  | ±30%              |
|                   | Tensile strength      | ASTM D683   | >18 MPa           |
|                   | Elongation at break   | ASTM D683   | ≥245%             |
|                   | Flammability          | UL94 V0     | Pass              |
| Electrical        | Dielectric strength   | ASTM D149   | ≥19.7KV/mm        |
|                   | Volume resistivity    | ASTM D257   | ≥300%             |
| Chemical          | Resistivity           |             | Inert             |

Dimensions/Shrink ratio: 1.6: 1
