## MECHANICAL & THERMAL PROTECTION

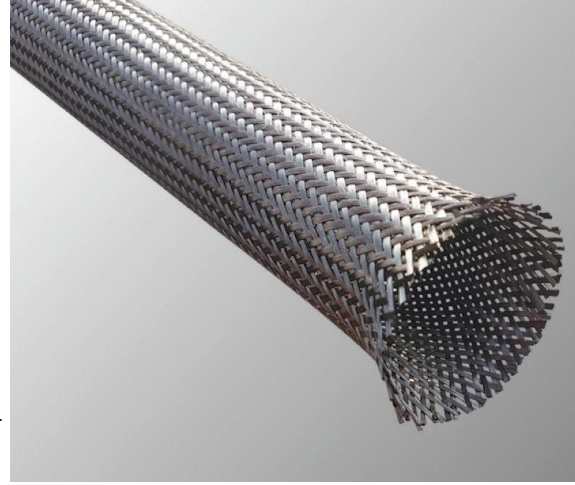

### Basalt Sleeve

#### Applications

Basalt braided sleeving has outstanding property of electric insulation, high temperature resistance, chemical-corrosion resistance, excellent tenacity that make it to be the best insulating and protecting solution in extreme working environment where service ability is required.

#### Features

Widely used in metallurgy, chemical industry and aviation for protecting hoses, oil tubes, cables or as a cover.

#### Technical Data

Property	Values
Material	Basalt fiber
Operating temperature	-269°C+650°C
Melting point	1400°C
Standard color	Brown
Flammability	94V-0
Cutting tool	Shears
Certificate	Rohs
Other features	Durability to the attack
	of water, salts, alkalis and acids

#### Dimensions

Nominal size (mm)	Expanded range (mm)	Packing (m/roll)
Φ3	1-4	500
Φ6	5-8	300
Φ8	6-10	250
Φ10	7-13	250
Φ12	8-16	200
Φ15	10-20	200
Φ20	14-26	150
Φ25	18-33	150
Φ30	20-39	100
Φ40	30-52	100
Φ50	40-65	100
