

# DS-FT

## MECHANICAL & THERMAL PROTECTION

Nylon textile protective sleeve

### Applications

It is widely used to protect hydraulic pipes, rubber hose ,plastic pipes, wire harness from damage, this kind of sleeve can also be used in industrial and construction fields where outstanding hose productions are needed.

### Features

Nylon textile protective sleeve consists of nylon multifilament. This kind of tublar sleeves are uniquely designed and ideal for protecting people, environment and machinery against any possible hydraulic hose oil leakage or spill. The tight woven construction can provide excellent abrasion resistance and high degree of burst resistance.

**Certification :** MSHA
